

MIFIDPRU 8.5 Own funds requirements - Composition of regulatory own funds			
	Item	Amount (GBP thousands)	Comments
1	K-FACTOR REQUIREMENTS	2339	Total of 2-10
2	K-AUM requirement	57	
3	K-CMH requirement	1163	
4	K-ASA requirement	1114	
5	K-COH requirement	5	
6	K-DTF requirement	0	Not applicable
7	K-NPR requirement	0	Not applicable
8	K-CMG requirement	0	Not applicable
9	K-TCD requirement	0	Not applicable
10	K-CON requirement	0	Not applicable
2	FIXED OVERHEAD REQUIREMENT	1801	

The Board is provided with monthly management information detailing the firms 'own funds', 'own funds requirement' and 'liquid assets' which is used to determine if the firm holds sufficient own funds to cover the ongoing requirements of the business and sufficient resources to cover the wind down of the firm.

Additionally, as noted in the firms ICARA document the following statement is detailed.

The firms' CET1 meets 100% of the capital requirement, as such there is no tier 2 level funding required. The CET1 capital exceeds the 'Own Funds Threshold Requirement' of c£2.7m and the 'Own funds Wind Down trigger' of £2.5m

The firm holds the majority of its assets as a cash deposit (c£8m)- which meets the definition of core liquid assets. The Core Liquid Assets exceeds the 'Liquid Assets – Operational requirement' of £1.8m and the 'Liquid Assets – Wind Down trigger' of £2.5m.

The firm remains in a highly liquid and well-funded position, it is not envisaged this position will materially change in the coming 12-18 months.
